

TOOL 2   Climate & Migration		
Learning Objective	Climate change as one reason for migration and other factors influencing migration	
Learning Outcome	After use of the tool, participants will <ul style="list-style-type: none"> <li>▶ understand:               <ul style="list-style-type: none"> <li>▶ the influence of climate change on migration</li> <li>▶ other factors that influence migration</li> </ul> </li> <li>▶ be able to:               <ul style="list-style-type: none"> <li>▶ analyse reasons for migration</li> </ul> </li> </ul>	
Target Group	All	
Type	 	Duration 45 minutes
Use	 	Participants 12-25
Complexity	Simple	
Material Needed	 <ul style="list-style-type: none"> <li>▶ Flipcharts per group and markers</li> <li>▶ Group working rooms</li> </ul>	
	 <ul style="list-style-type: none"> <li>▶ Breakout rooms</li> <li>▶ Whiteboards per breakout room</li> </ul>	
Preparation Steps	n/a	
Implementation Steps	<ul style="list-style-type: none"> <li>▶ Build groups</li> <li>▶ Ask groups to develop 1-3 stories on climate migration (examples are in Module 3 “Linkages between climate change and migration”) they know about, or they heard about (individuals, families, communities)</li> <li>▶ Describe the stories as pictures (not as a text: for didactical reasons) on a flipchart</li> <li>▶ Let groups present their stories in plenary</li> <li>▶ Ask other groups to identify the cause(s) for migration; insist on deep analysis (multi-causality):               <ul style="list-style-type: none"> <li>▶ Why did people migrate or not?</li> <li>▶ Is there more than one reasons?</li> <li>▶ Did they have other choices?</li> <li>▶ What supported/hindered them?</li> <li>▶ What challenged them?</li> </ul> </li> </ul>	

**TOOL 2 | Climate & Migration**

	<ul style="list-style-type: none"> <li>▶ Additional guiding questions: <ul style="list-style-type: none"> <li>▶ Why did migration happen?</li> <li>▶ What were the outcomes of the migration/non-migration regarding vulnerability to climate change?</li> <li>▶ Which role did existing (local, national, regional) policies play in the decision?</li> <li>▶ What hindered (e.g., permanent) migration?</li> <li>▶ What supported migration?</li> </ul> </li> <li>▶ If time allows sort by “vulnerability profiles” (resilient, coping, erosive, trapped as described in Module 3 “Linkages between climate change and migration”)</li> </ul>
