TOOL 1 | Analyse Data Sources

Learning Objective	Understanding availability and sources of data on migration

Learning Outcome	After use of the tool, participants will
	▶ understand:
	  ▶ where data are available
	  ▶ what kind of data are needed and available
	  ▶ how to evaluate data and use them
	▶ be able to:
	  ▶ find and use data on migration

Target Group	All
Type	Duration 60 minutes
Use	Participants 12-25
Complexity	Medium
Material Needed	▶ Flipchart per group and markers ▶ Links to data sources ▶ Internet connection per group at least one laptop /tablet/ smartphone) ▶ Breakout rooms ▶ Whiteboards per breakout room
Preparation Steps	▶ Prepare flipcharts with the guiding questions ▶ Prepare data source links

Implementation Steps	▶ Build four groups of participants (number depending on data sources identified)
	▶ Each group to analyse one data source, e.g. Migration Data Portal, International Migrant Stock | Population Division (un.org)
	▶ Guiding questions:
	  ▶ Which data would you need to analyse migration (drivers, projections, mitigation policies, etc.)?
	  ▶ What data would you/your institution need to work on HMCCC"
	  ▶ What kind of data would you ideally want to have (Hint: quantitative, qualitative, geo-referenced, disaggregated, longitudinal as listed in Chapter "Data needs" of Module 2)?
	  ▶ Do you find these data in the portal?
	  ▶ Are the data reliable?
	  ▶ Which data are missing?
	  ▶ What are the strengths of the source and what are weaknesses?
	  ▶ Do you know other sources?
	▶ Let all groups present in the plenary and present the source in detail to the others
